Dear Parents/Carers,

When the annual questionnaire is issued each year, a response we often get from parents is "what teaching methods are used in school to teach Mathematics." In response to this we are offering parents the opportunity to come to a meeting in school so that we can inform you how we teach maths and how you can help at home. (Please see below for dates and times). The curriculum changed last year, and the Government's expectations for children learning in primary schools has also changed. In light of this **please ensure you attend your class meeting as it will be very informative.** Meetings will be held in your child's classroom. Supervision in the playground will be provided for children of parents/carers attending the after school meetings.
